

learn to dream™ a guide on how to hang your artwork with spacers

Hi, I'm Carole Smith, I'm going to be showing you how to hang your artwork. But before we begin, let's just check we have everything...

STEP 1

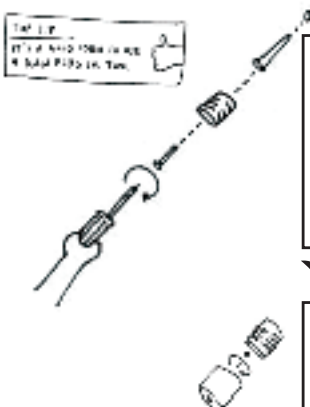

Mark out on your wall with a pencil where you'd like to hang your artwork. It's a good idea to use spirit level and measure carefully otherwise you'll end up with a wonky artwork.

STEP 2

Where you've marked, drill a hole. Just double check that these match the holes on the artwork, otherwise things could get messy.

STEP 3

Take the four round gold nutty things (they've got a thread on) and using the four small screws and screw them into your wall using a Philips screwdriver. If your partners called Philip then that's a bonus.

Now, screw on top of the gold nutty things the silver outers. There'll be four of these too.

STEP 4

Finally, take your artwork and attach it to the wall with the remaining silver capped bolts. You should be able to do this with your fingers. Congratulations, your artwork is complete, don't forget to pat yourself on the back.

Follow our step by step guide to help you put up your artwork. if you have any problems we are here to help, contact us on 0845 456 4033
